September, 2020

Dear Camp Apollo Parent/Guardians,

The Board of Directors and the Camp Directors hope this letter finds you and your family safe and healthy. As the opening of the school year commences, we are aware there are more things to concentrate on than camp. The continuous uncertainty this fall season is on all our minds. To say that these times are unprecedented and confusing is an understatement. In the interest of open communication, we would like to update you about Camp Apollo for the 2021 summer season. Camp Apollo is in the process of creating a proposal for a summer that will provide the “new” regular camp season and include trips to various venues. In the event there are travel restrictions, Camp Apollo will alter its programming and its pricing.

It’s true that COVID-19 has led to a constantly shifting environment, and that good things (vaccine development) and bad things (new outbreaks) are all possible. Camp Apollo promises to keep adapting, with you, by offering responsive, insightful, and timely resources that reflect emerging important information. You and our campers are our top priority, and we’re passionately committed to serving you and your children through the camp experience.

We look forward to receiving specific recommendations and guidelines from the CDC, the Governor, New York State and Nassau County Health Departments for the 2021 summer camp season which would create the safest environment possible.

In keeping with our long-standing reputation, our considerations are first and foremost, the safety of our campers and staff. We look forward to a healthy, safe, and happy 2021 camp season.

We anticipate camper registration to begin in early November. Camp Apollo will send you an updated letter with the particular information needed to register your children. For now, please continue to be safe and be well.

If you have any questions, please contact us at 516-938-2670 or email us at campapollo@verizon.net.

Sincerely,
The Camp Apollo Board of Directors

Look for Camper Registration in early November!
